

At the EFORT meeting in Vienna a nurse session was set up for the first time. To the EFORT meeting in Madrid, nurses are invited to send in presentations to share evidence, innovations and views with colleagues. Both quantitative and qualitative research will be considered. Ideally your submission should relate to the following theme

Patient centred care
Quality of care and patient safety
Education, competency and personal
Development
Management and leadership
Clinical pathways
Nursing education and the learning
Environment

although other areas will be considered. All applicants are required to submit a 250 word summary on the topic of their paper. Multiple abstracts are welcome.

I wish to submit a presentation (only in English), click [here](#).

Presentation submission deadline: 15 November 2009
